Guanlu brief information

Our company register capital is RMB1570,about USD245000,we have the fixed assets about 5million USD dollars.Two workshops about 12000 square meters,machining machines about 40sets. Among them,we have 12meters Germany Heckert guider grinding machine,10meters Japanese SNK Five face milling machine,Chinese most famous 12meters Gantry planner,Zonjet coordinate boring machine and other CNC machines.

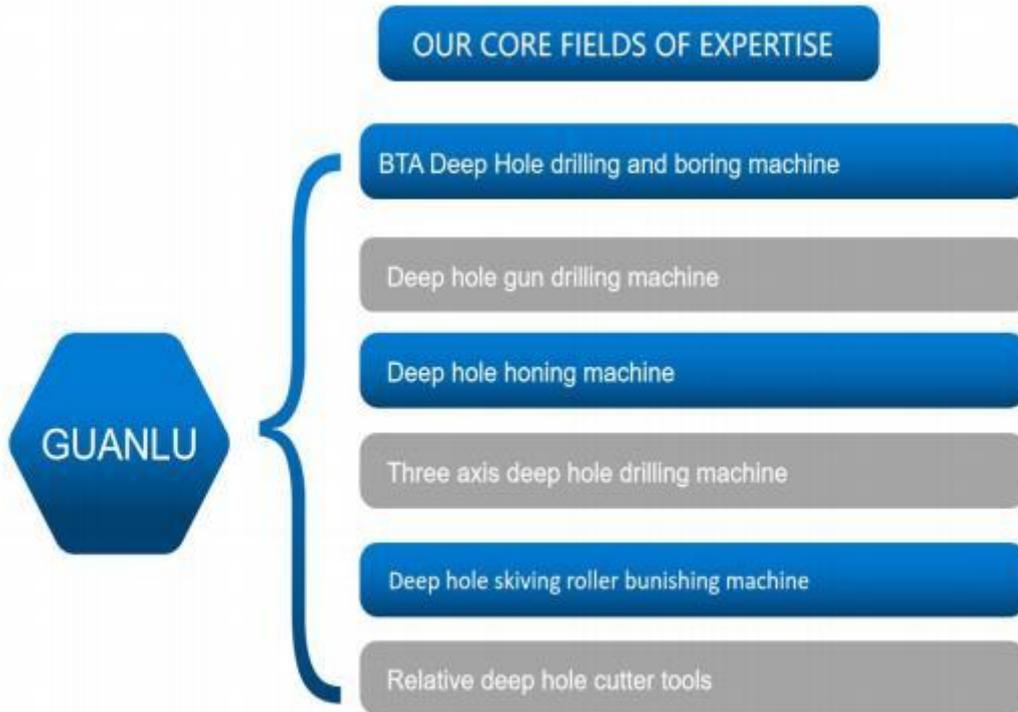

Advanced structure

Strictly quality control system

Exported to more than 40 countries

In time service and response

WORKSHOP : 12000m² (two workshops)

OUR COMPANY

Established in 2011, as a new factory, gathering the best technical and engineers, skilled workers, we develop very fast.

We have the unique design and satisfied quality. The quality and performance are as good as European machines, while the price is just one third of them.

Our machines and tools are exported to the following countries (more than 40 countries): France, Ireland, Singapore, Spain, Indonesia, India, Iran, Iraq, Malaysia, Russia, Mexico, Egypt, Turkey, Brazil, UAE, Ukraine, Serbia, South Africa and s

We focus on the machine quality and performance, absorb advanced technology from Europe, have achieved ISO9001, CE, Quality management system, Environmental management system, Occupational health safety management system certificates, as above:

德州冠鲁精密机械制造有限公司

DEZHOU GUANLU PRECISION MACHINERY CO., LTD

For quality control,we strictly management the producing process accordance with

ISO9001,professional design and research team,stable parts supplier,skilled assemble team,from parts to finished machine,we built the machine 100% comply with our drawings. So all of our machines are in good quality and stable performance.

For every procedure,we have quality control standard,the inspector will measure every process and records.

Producing cause and purchase cause,we have individual inspector who is in charge of the quality issue.

Before shipment,each machine will be tested to run for 72 hours. All the troubles and problems will be solved before ship the machine out.

Machine Quality Control

Machine bed,cast parts are aged by ageing device,the cast parts are quenched,being heat treatment and precise ground.Before assemble the machine,we have hardness Test by hardness meter.

Machining/purchasing parts strictly according to drawings

Technical Team

Mr Sang LiYe

Chief Engineer

- ※ Devoted himself in deep hole drilling fields for more than 46years.
- ※ Engaged in editing &published a book about deep hole drilling process.
- ※ Has been to more than 20 countries to fix/solve the deep hole processing difficulties.
- ※ Rich of experience and deeply knows about the deep hole drilling
- ※ Design special BTA drilling machine for twin holes,design 1000mm ID BTA drilling machine and other specialized machine.
- ※ Good at solving technical difficulties of special requirement of the workpiece,such as special require of hole deviation,hole straightness,hole surface,irregular hole and others

Mr ZhangWenqiang

Senior Engineer

- ※ Worked in deep hole drilling field for more than 15years
- ※ Graduate from XIHUA University,which is a very famous and authorized college in China
- ※ Awards:
 - ◎ Three times No.1 awards from Dezhou city(about combined BTA and gun drilling machine,stator shaft drilling,crankshaft drilling and milling)
 - ◎ Eight times NO.1 awards from Shandong province(about crank shaft drilling,tube plate drilling,BTA and gun drilling combination,seven axis deep drilling and so on.
- ※ Patents: seven patents about guide rest,headstock,drill bar rest,drilling guiding,double pump coolant and so on.
- ※ Writer of << Machine and hydraulic>>(about combined BTA drilling and gun drilling) 2014
- Writer <<machine and hydraulic>> (about thin wall drilling)2015

Mrs Wang Chuanying

Production Manager

- ※ Has more than 20 years design experience for deep hole drilling machines .
- ※ Mainly in charge of research and development of deep hole drilling machines .
